**THIS IS MY
DREAM CAREER!**

**THIS IS HOW I'M GOING
TO ADMIRE MY DREAM**

Future belongs to those who dare to dream!

The students of our nation have immense potential and lots of raw talent. They indisputably hold the future of our nation. Indian students across the globe are renowned for their IQ level and industrious nature. Despite this fact, the number of our students attempting the national level Olympiads is drastically less as well as the appeared children have not consistently secured top positions in the national and international level competitions. We acknowledged that there is a pressing

need to address the issue and this eventually led to Dream Them®.

In the current scenario, students and parents are focused on the competitive exams only at a higher secondary level. The Students and parents take this bull by its horns only in the eleventh hour. Our expert panel of teachers, professionals, scholars and scientists strongly recommend that parents and the students acknowledge the significance of devoting themselves to gaining knowledge about the concepts at a deeper level in the early years itself than just aiming at a good percentage in the board exams.

We at Dream Them® train the students right from their elementary level and focus on academic excellence and comprehensive career guidance to equip them to commensurate with the National Education Policy (NEP).

An Introduction to PSK's Dream Them International Olympiad

Dream Them International Olympiad, for grades 6–10, runs from September to April, with monthly exams on second Saturdays. It encourages individual and group engagement by providing career assistance and academic support. Dream Them®, designed for Indian schools and matched with NEP 2020, transforms education by developing children's intellectual potential through examinations in Mathematics, Science, Social Science, and Mental and Logical Ability.

Early Development and Comprehensive Training:

In today's educational landscape, the emphasis on competitive tests often begins in the upper school level. However, our expert group, which includes teachers, professionals, scholars, and scientists, recommends early immersion in deep conceptual comprehension over last-minute exam preparation. Dream Them® believes in starting at the grassroots level. Our programs prioritize academic achievement and provide comprehensive career mentoring in accordance with the National Education Policy (NEP).

Program Features:

- Comprehensive study materials and recorded videos covering various subjects and topics.
- Specialized exercises designed to improve reasoning and logical thinking.
- Activities aimed at sharpening analytical skills.
- Tailored preparation provided for competitive and board exams.
- 24/7 access to clearance sessions for resolving doubts.

- Online discussions facilitated for collaborative problem-solving.

- Weekly online class on Sundays focusing on mental ability (1.5 hour)

- Monthly offline class is dedicated to career development and orientation.

- Civil Service Examination Preparation classes will be offered online on Mondays (1.5 hour)

- Monthly online exams are held on the second Saturday, with a duration of 1 hour.

- The fees per season are ₹3,000 and Olympiad Season 5 begins on September 13

Key Objectives:

- Develop a deep understanding of fundamental concepts from an early age.
- Foster a culture of holistic education and lifelong learning.
- Bridge the gap in national and international level competitions.
- Equip students to excel academically and navigate their career paths effectively.

At Dream Them®, we're more than just an educational program. We're dedicated to going the extra mile for our partner schools. From providing valuable academic resources to boosting classroom learning, we're committed to improving educational outcomes.

Join us and let's make learning an empowering journey for students everywhere!
